Aquatec Maxcon Pty Ltd, the exclusive Australasian distributors for Capstone Turbine Corporation, and through
Hutchinson Builders, is supplying and commissioning nine (9) quantity model C65 Capstone Turbine co-generation systems for use by the Queensland Department of Emergency Services (DES) for the new Queensland Emergency Operations Centre (QEOC) at Kedron Park.

By using both the heat and power produced by the extremely low emissions and low maintenance technology, Capstone Turbines are assisting in the QEOC in being a world-class facility designed to very high environmental standards - Green Star certification at a 5-star rating.
