Bulk storage, transfer and metered dosing systems for water treatment coagulants, polyelectrolytes, oxidants, adsorbents and pH correction agents include:

- Alum (liquid and powder);
- Ferric chloride;
- ACH / PACL;
- Polyelectrolytes (liquid and powder);
- Lime (hydrated and quicklime);
- Soda ash;
- Caustic soda;
- Powder activated carbon;
- Potassium permanganate;
- Carbon dioxide;
- Sulphuric acid; and
- Fluoride.
